INDIANA**TECH**

A Path to Completion for City College of Chicago Graduates

Congratulations on earning your associate degree! Indiana Tech is partnering with City College of Chicago (CCC) to make it easier and more affordable for you to take the next step in your education journey. CCC students who have successfully completed an associate degree can seamlessly transfer into a bachelor's program at Indiana Tech as a junior, saving valuable time and money.

CCC graduates can stay close to home by transferring into one of Indiana Tech's online bachelor's degree programs, or students can enjoy the traditional college experience by taking in-person classes on Indiana Tech's beautiful campus in Fort Wayne, Indiana.

Scholarship Opportunities Available

CCC graduates who wish to take online classes online at Indiana Tech may be eligible for the university's Merit Scholarship, which saves 20% on the cost of undergraduate tuition. This scholarship is available to all community college graduates who have completed an associate degree with a GPA of 2.5 or higher. Students who wish to take classes in person at Indiana Tech in Fort Wayne may also be eligible for a first-year merit scholarship. Talk to your personal admissions representative to learn more about these opportunities.

Junior standing upon transfer requires a minimum of 60 credit hours. Merit scholarship cannot be combined with Indiana Tech's military scholarship. For undergraduate courses only.
