

INDIANATECH

Let Indiana Tech help you take your associate degree to another level.

We make it easy to build upon your Ivy Tech associate degree to earn a bachelor's degree. Find out exactly which classes you need to take on the back of this information sheet.

Indiana Tech will help you financially as well. If you graduated from Ivy Tech after 2010 and have a minimum cumulative GPA of 2.5, you are eligible for the Ivy Tech Merit Scholarship, which will result in a 20 percent reduction in tuition.

Associate of Science in Early Childhood Education

TO ACHIEVE THIS

Bachelor of Science in Child Development

Program Overview

Learn how to be a successful advocate for children. We all know that children need support and guidance as they grow into healthy successful strong adults. There is an increasing focus on the methods and strategies to positively impact that development.

The bachelor of science in child development program is designed to teach you the stages of development from infancy through adolescence and the ways that society and nature can impact how individuals grow and develop.

The specific goals of the program are to:

- Observe and assess children's development levels
- Examine the importance of child advocacy at all ages
- Provide a foundational knowledge-base of the current research on child development, including typical and atypical cognitive, physical, and socioemotional development
- The impact of culturally diverse values and societal attitudes can have on child development

The curriculum also includes course requirements intended to prepare students interested in further graduate study and research.

A child development degree prepares a student for a flexible job future. Child development majors earn positions in such fields as:

- Preschool/Childcare Center Director
- Preschool Teacher
- Teaching Assistant
- Social Services/Community Services Manager
- Child Protective Services Worker
- School Psychologist (this is a recommended Bachelor's Degree to obtain a master's degree as a school psychologist)
