### **Program Overview**

A lot of the business of a criminal justice career happens behind the scenes. That's the focus of the concentration in criminal justice administration. Managing the operations of a police organization requires a unique ability to understand the needs of the community being served as well as the components of the organization. Whether a student wants to pursue a career in law enforcement or private investigation, the courses in this concentration enable individuals to enter organizations with a broader understanding of the rationale for decision-making within criminal justice organizations.

If you enjoy leading a team of people and have the desire to make a real difference in your community, this may be the criminal justice degree for you.

We have small classes and do not have lecture halls. Because of this, our instructors are to connect with students on a one-on-one basis. We are able to employ a variety of teaching styles to enable all students to take full advantage of our program's opportunities. We promote an engaging learning environment which means students will be active participants in their classroom endeavors.

To encourage future job success, the Center for Criminal Justice encourages student internships at the local, state, federal and private level.

With a criminal justice administration degree, graduates can excel as an administrator in municipal, county or state organizations. Other career options include becoming civil service officers, state and federal parole officers, court administrators, federal law enforcement officers or positions in private sector law enforcement.
